

A VEGETABLE STAND IN VENICE.

#### AT THE RAINY DAY CLUB.

FROM SHORT SKIRTS TO A DISCUSSION OF SANITARY LAWS.

"HOMES AS THEY ARE AND AS THEY OUGHT TO BE" DISCUSSED BY CHARLES E. WINGATE.

The Rainy Day Club transferred its attention from short skirts to ventilation yesterday afternoon at its regular monthly meeting at the Murray Hill Ho A lecture on that subject was given by Charles E. Wingate under the title of "Homes as They Are and as They Ought to Be." Mr. Wingate said:

Houses are built by mere men, and unfortunate omen have to live in them, while the men go downtown to beautiful office buildings. We will never have really good houses till we have women archinave really good notes a hole in the ground, puts a box of wood or brick over it and expects it to be dry. He puts all the cooking and heating apparatus in the basement, stops up the fireplaces, and his wife adds to the total depravity of the whole by filling the rooms up with draperies. No wonder we have a drug store on every corner and a doctor in every

These conditions are found not only in the homes of the poor or those of moderate means, Mr. Wingate says, but in the homes of the rich. Indeed, he gate says, but in the nomes of the rich. Indeed, no thinks the rich suffer most, and he has learned to estimate the probable misery of a family by the number of servants kept. At Newport he saw two \$1,000 bathrooms that could not be used with safety, owing to a defect in the plumbing, and these things are so common that he thinks there should be a Society for Improving the Condition of the Rich. He puts great hopes, however, in a future reform administration.

administration. "At the next election," he said, "we will put in a reform Mayor, and then we will hang a few plumbers, have a Board of Health composed of women, and perhaps he able to live in tolerable safety and comfort."

women, and perhaps be able to live in tolerance safety and comfort."

This remark elicited enthusiastic applause from the audience. When it had subsided Mrs. Cella B. Whitehead said that she supposed it was meant as a tribute to the president of Columbia, and that she would therefore like to say that she had reason for believing that the sanitary condition of the new college was not at all good. Mr. Wingate said that he could not say anything about the new college, but he knew that the old one was splendfully ventilated.

TRAINING CLASS FOR CHRISTIAN WORK ERS RECEIVES PRACTICAL INSTRUCTION.

Dr. A. F. Schauffler, of the New-York City Mission, began his usual winter course of lectures to the Training Class for Christian Workers conby the woman's branch of the mission yesterday morning with an introductory talk on the study of the Bible. Twenty-four of the remaining lectures will be on the same subject, and the other forty-five will be on all sorts of practical work—conducting meetings, district visiting. Sunday-school work the principles of teaching, etc. The lectures are given on Wednesday and Friday mornings, beginning at 11:45 o'clock, and any one interested may attend them.

The training class consists generally of about a dozen young women, and one of its members this year is Miso Cable, George Cable's daughter. The class was started for the purpose of training women for city mission work, but many enter it now simply to learn how to do ordinary church work more effectively.

The lectures next week will be omitted, as Dr. Schauffler will go to Washington to attend the meeting of the International Lesson Committee. the study of the Bible. Twenty-four of the remain-

HOME FOR CHRISTIAN HELPERS.

CELEBRATING THE COMPLETION OF THE FIRST YEAR'S WORK-THE NURSES'

The Home for Christian Helpers, No. 52 Madison st., Brooklyn, which has just completed its first year, is celebrating that event this week with a year, is celebrating that event this week with a two days' fair. It began yesterday afternoon, and will continue to-day, in the parish-house of the Church of the Incarnation, Quincy-st., near Frank-lin-ave., Brooklyn. A unique attraction in the sup-per-room is a chafing-dish supper; lobster & la New-burg and Walsh will are sorted. burg and Welsh rabbit are served.

The home is the result of the combined thought and effort of Drs. Arnold W. Catlin and James Darlington, the one a physician and the other the rector of Christ Church, in Williamsburg. Of its need and scope, Dr. Catlin says;
"It grew out of the fact that no systematic,

trained, intelligent nursing was available for the sick poor or the great intermediate class of wage-earners, whose lives are even more valuable than those who have this world's goods. It is non-sectarian and under a board of women managers from the various religious bodies of the city, without "A special garb is worn by the nurses, because it

"A special garb is worn by the nurses, because it has been found to be a source of protection in their daily and nightly visits to the most dangerous parts of the city. Each nurse is provided with a bag, which contains hot-water bag, antiseptic dressings and everything which is needful in a sick-room. In addition to this, she carries when they are required bed linen, towels and suitable clothing for the sick, and, where there is need, for both mother and child."

There are at present ten members of the home, and applicants are coming constantly. Two have recently entered as probationers, and as soon as it is clear that they are adapted to the work will be added to the list of regular nurses.

WIRED EPAULETTES TO GIVE SQUARE-SHOULDERED EFFECTS.

MEMORY OF THE OLDEST INHABITANT. predicted, but they certainly have not appeared yet. A squared effect is what is aimed at, the extension line being a direct continuance of the line of the shoulder, not in the least "bunchy," which takes away from the style of the cut at once, but neither must it be too drooping. To get the desired effect some of the French dressmakers put in a little wired epaulette extension between the lining and the goods. Another little touch which seems to be required to give style to a gown is a small bustle, made of silk. like the lining, and filled with horse hair. It is sewed under the pleats at the back.

Silk linings are as much used as ever, and to give the desired "frou-frou" that distinguishes such it is more expensive than the cloth itself. Inlaying seems to be a general feature of the dresses of

VERS AND BELT OF YELLOW RIBBON.

season, and certainly it is a pretty one. The cloth is cut so as to show a different material, and often a different color, underneath, the edges of cloth being finished with braid or passementeric. Sain makes the prettiest contrast to cloth, and a little glint of a bright color peeping through a design on a gray, brown or black material is charmingly effective.

A presty suggestion for a gown treated in this way is a dark purple soft cloth. The embroidery runs down on either side of the front breadth and continues around the skirt, leaving the front plain. The pattern is a running design, with the flowers and leaves in cut work—that is, the cloth is cut out.

STYLISH BLOUSES.

A blouse waist, meeting at the collar and belt, but gaping apart so as to show a plissee of colored or white chiffon, is a pretty fashion that seems popular, and the shoulders are frequently squared with a widening strip of cloth sewed down over the line of the shoulder and extending over the pufflike epaulettes. An attractive-looking gown is of tan-colored camel's hair. A pleat on the shou der is held down with small, flat buttons on either side to the shoulders, where the pleats flare out over the sleeves, which, below the slight puffs, are very tight-fitting, and are, apparently, buttoned from the shoulders to the walst. The front of the bodiec opens in the manner already described, and the space is filled in with folds of white satin, with the sleeves is a feature in many of the new gowns.

A stylish costume of dark blue serge has a collar of vivid green satin, covered with white guipure out in a long tab on the shoulders overhanging the sleeves, and another plastron-like tab in front, extending far enough down to be on a line with : very short bolero of the same satin and guipure, which gives the effect of three tabs in front. These, together with those on the shoulder, are

cept for a narrow line of green satin above the hem, covered with an inch-wide guipure insertion. An altogether charming costume for a young girl is made of dark red cashmere, the skirt is laid on in box pleats in front, each pleat being held down with two bunches of dark red flowers in flat slik applications. The bodies is a Russian blouse, fastened under the left orm. The bassque is covered with dark red embrodiery and the scalloped edges of the sleeves are also clustorately embrodiered, with scalloped edges, which extends over the sleeves, and while is also clustorately embrodiered. The collar is of white gathered mousseline de sole and the sleeves are gathered a la mousquetaire to the shoulders.

An extremely profits way of making a simple house frock is to have it cut princesse shape, fastening of guipure lare, with a bold scroll-like pattern, which widens as it approaches the hem.

Velvet toques and velvet tams, trimmed with tail, modding ostrich plumes, three or four on each hat, will be in great favor this winter. Virot has sent over some lovely models of this sort. One, a "tam" of brown velvet, has two high feathers and three thys below, resting on the brim the under side of the latter being of red velvet. This idea of having another color on the under side of the brim of a large frame, with a broad white soose quill and two black ones held together by a certest of Strauss diamonds. A long white and a long black feather are considered chic worn together, other Vivot confection represents the quaint-shaped hat that one sees in old prints, covered with black velvet, and a long, curling white ostrich plume curving around the brim and another very full black one standing up straight.

TERDAY IN NEW-LONDON, CONN. The Woman's Board of Missions was represented at the annual meeting now going on in New-Lon-don, Conn., by Miss A. B. Child, who yesterday gave

her yearly report, and said:
"The year 187 closes thirty years of organized labor for women in mission lands by Congregational women in the United States. Thirty years ago this organized labor was a new experiment, questioned by friends, criticised by foes, doubted by the breth-ren in the churches, thoroughly believed in by a few women who had faith in their Lord and in His command, and who had the courage of their convictions. The Woman's Board of Missions, the small plant of thirty years ago, has grown to be a tree, and to-day some of our greatest perils are the perils

The receipts for the first year were \$5,033 13. The largest amount received in any year was \$142,787 30, in 1892. The average yearly income for the first ten years was about \$14,400; for the second decade, \$109,578; for the third, \$125,624 76. Total amount for the thirty years, \$2,806,366 57. The number of mission-aries supported has grown from 1 to 128, 237 having been under our care since the beginning. Our Bible women, from 41 to 162; boarding-schools, from 1 to 33; day schools, from none to 255, and the sums of money put into school buildings and homes is, in the aggregate, about \$500,000. Of the way in which these results have been secured there is no time to speak to-day. Each one here knows her own part in 1:—how heautiful and satisfactory it has been, notwithstanding mistakes and failures.

"There are now connected with the Board twenty-three branches, comprising about 1,100 senior auxilitary societies, with an estimated membership of over \$0,000; 585 junior auxiliaries and mission socieles, besides cradle rolls, for which 5,000 membership cards have been given out; also a large number of contributing societies of the Young People's Society of Christian Endeavor, King's Daughters and Sunday-schools. Many of these societies report progress; others, by stress of circumstances, have fallen behind the record of previous years, but all are alley, and in all more or less steadfast, earnest work has been done." The receipts for the first year were \$5,033 13. The

#### MARY WASHINGTON CHAPTER.

DAUGHTERS OF THE AMERICAN REVOLU TION MEET AT THE ASTORIA.

The Mary Washington Colonial Chapter of the Daughters of the American Revolution gave its first reception since its organization yesterday afternoon in the Colonial room of the Waldorf-Astoria. The walls of the room were covered with heraldic devices, which were explained by W. H. Abbott in a delightful talk on "Heraldry." About two hundred and seventy-five members and guests were present. Among them were Miss Mary Vanderpoel, the regent; Mrs. Mary Wright Wooten, ice-regent; Dr. and Mrs. William Bull, Judge and Mrs. Bookstaver, General and Mrs. James Grant Wilson, Mrs. Herman C. Schwab, Mrs. Leonard G. Quinlin, Mrs. Robert Hoe, Mrs. William Gibon, Miss Margaret Hillhouse, Mrs. John Cunningham Hazen, Mrs. James Hopkins, Mrs. Henry Gribble Mrs. Bayard Clarkson, Mrs. George Kidd, Miss Georgette Kidd, Mrs. James Edward Pope, Miss Stephen, Miss Laura Rhinelander, Mrs. Rhine-lander Waldo, Miss Margaret Remson, Mrs. Rich-ard Hoffman Benson, Mrs. Lewis W. Washington, Mrs. John Sargeant Wise and Mrs. Walter Lester

Carr.

The guests were received by the regent, Miss Vanderpoel.

This chapter is only a year old, but already has a hundred members, with fifty on the waiting list. It has placed a tablet in the Postoffice to commemorate the first blood shed in the Revolution, and has contributed £50 toward the Continental Hall, in Washington. It is now planning a Colonial tea to raise more money for the latter object, and is trying to organize all the patriotic societies in the city and State for united patriotic work.

CRYING FOR MORE MISSIONARIES. Denver, Nov. 3.—All parts of India, China and Japan come pleading for more missionaries. The reports which are being read at the Methodist Women's Foreign Missionary Society are filled with the crying need for a greater number of women to carry on the work in the famine dis-tricts and to relieve the missionaries who have tricts and to relieve the missionaries who have been working for years amid perils of tropical cilimate and hostile natives. The Committee on Missionary Candidates reported through the chair, Mrs. Wilder, the names of four women who desire to devote their lives to the enlightenment of the heathen. They are Miss M. A. Livermore, of Smith Centre, Kan.; Miss Amy Clifford Lewis, of Jamestown, N. Y.; Miss E. Marguerite Clonke, of Herkimer, N. Y., and Miss Elizabeth Barney, of Topeka, Kan.

The Board will meet on Monday and elect officers. Mr. Butter has been the president for 1897, and will probably be re-elected

The society was incorporated in May, 1839, by the union of the Society of American Artists, the Architectural League of New-York and the Art Students' League of New-York. Its main building and galleries are in Fifty-seventh-st, between Broadway and Seventh-ave. The expenses are met by voluntary subscriptions—those contributing \$5,000 are named as founders; a subscription of \$1,000 gives one the title of patron, and \$600 qualifies one as an associate. Contributors of smaller sums are known as life fellows and ten-year fellows.
